**Full Stack Web Developer | React + Node.js + MongoDB + Zustand + Typescript**

Lagos, LA

[lawrenceimana108@gmail.com](mailto:lawrenceimana108@gmail.com)

+234 704 958 2775

Full-Stack Web Developer with hands-on experience building production-ready applications that integrate secure authentication, Stripe payment systems, and modern UI frameworks. Skilled in React, Node.js, Express, Zustand, and MongoDB, with a strong focus on scalable architecture, smooth user experiences, and team collaboration. Passionate about turning complex technical challenges into elegant, efficient solutions that drive real user and business value.

## Work Experience

---

### Lead Full Stack Developer

NSK.AI Organization-Lagos

July 2025 to Present

Designed and developed a full-stack web application with React (frontend) and Node.js/Express (backend), featuring MongoDB as the primary database.

Implemented Stripe payment integration and configured webhooks for automated notifications and receipts.

Built a global state management system with Zustand to streamline data handling and user interactions.

Enhanced site performance, reducing load time by 35% through optimized components and lazy loading.

Deployed the application using Vercel (frontend) and Render (backend) with environment-based configurations.

Collaborated on version control using Git branching and pull requests, ensuring clean, production-ready merges.

Key Projects:

Stripe Webhook System: Built and tested a secure webhook flow to track successful payments, trigger email confirmations, and update user dashboards automatically.

Responsive Company Website: Developed SEO-optimized, mobile-first landing pages using React and Tailwind CSS.

Preloader + UI Animation Framework: Created a smooth loading experience with React hooks and Framer Motion.

### Frontend Developer

Udara-Lagos, Nigeria

February 2025 to May 2025

Developed and maintained responsive, high performance interface using react, and modern component based architecture.

Ensured accessibility, browser compatibility, SEO, and mobile responsiveness across diverse screens and devices

### Frontend Developer

CodeCrest Innovations-Lagos, Nigeria

April 2024 to December 2024

Collaborated with a 4-person team to deliver interactive dashboards and client landing pages using React, Zustand, and Tailwind CSS.

Integrated REST APIs and enhanced UX with responsive layouts and dynamic animations.

Improved client engagement by 20% through better component organization and modern visual design.

Participated in weekly sprint reviews and code reviews to ensure maintainable, scalable solutions.

Key Contributions:

Developed reusable React components and custom hooks for data fetching and state management.

Assisted backend engineers in defining API requirements for efficient frontend integration.

Delivered multiple client-facing web applications under tight timelines.

## Education

---

### **Animal science (Undergraduate)**

University of Benin-Benin, Nigeria

July 2023 to Present

## Skills

---

- Soft Skills: Problem solving, communication, collaboration, time management, clean code practices
- DevOps and Tools: Git, GitHub, CI/CD, Vercel, Render, Postman, Stripe CLI, VS code
- Backend: Node.js, Express.js, MongoDB, Mongoose, JWT authentication, Stripe API, Nodemailer, Webhooks
- Frontend: React.js, Next.js, Zustand, JavaScript, Tailwindcss, framer motion, REST APIs, Responsive Design, SEO optimization

## Languages

---

- Yoruba - Intermediate
- English - Fluent

## Additional Information

---

Successfully deployed multiple full stack a projects using production grade pipelines

Recognized for clean, modular code and strong debugging during testing phases

Consistently delivered features ahead of schedule with strong user feedback on performance
